

Nothing but fans!

 **Åkerstedts**
industrial fans since 1977

Fans that meet any requirement

WE ARE FAN CONSTRUCTORS.

We design and build fans. This is how we have always worked in Kvänum, Sweden, and this is how it will always be. Since our very beginning at Åkerstedts, we have been refining the art of industrial fan design, no matter what the size or the shape. And when you really put your heart and soul into something, over time you turn expert.

NO MATTER WHETHER you require large numbers of a single fan type or just a few tailor-made fans, you can rest assured that we can and will deliver. One of our biggest strengths is specialization in customizing and adapting to unique customer requirements.

IF THIS SOUNDS TOO GOOD to be true – then keep in mind that our highly efficient, ISO certified production process enables us to combine state-of-the-art solutions with individual support to meet the highest expectations on quality at very competitive prices.

IF THIS SOUNDS TOO GOOD to be true – then keep in mind that our highly efficient, ISO certified production process enables us to combine state-of-the-art solutions with individual support to meet the highest expectations on quality at very competitive prices.

OUR RANGE INCLUDES fans that cover every need – from radial and axial fans to advanced chimney fans. They come in all sizes, from small to extremely large capacities, and cover any pressure or temperature requirements you may have.

NO SPACE? Do you wish to place your fan in a corrosive environment? Do you need ATEX classification? Is custom colours an issue? No problem – we can deal with it and solve it! We base any request on our basic range, then we adapt and deliver to your exact needs. Choose whether you need direct drive or belt drive, stainless steel or epoxy finish, straight or backward curved blades – whatever your fan needs, we deliver compact and efficient quality products that pay off from day one. In addition, you will also get service that's second to none!

IN SHORT: Whenever you need a fan, no matter what size or specification – we have what you're looking for. So start by telling us what you need – then we take over and deliver beyond your expectations. It really is that simple!

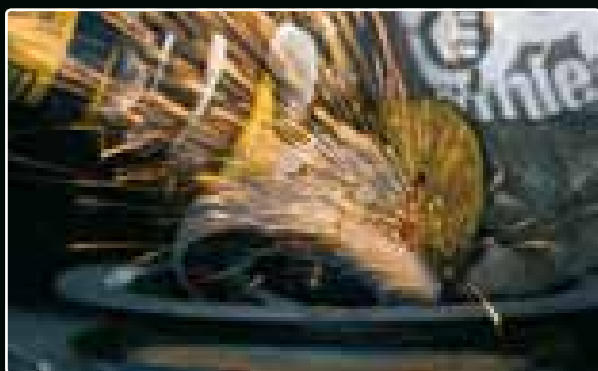

- **Customized solutions as standard!**
- **Optional ATEX classification!**
- **Ready for gas temperatures up to 400 °C!**
- **Extremely high efficiency – up to 87 %!**
- **Low noise levels!**
- **In-house service organization!**

Our designers quickly analyze your needs and develop state-of-the-art solutions.

We manufacture close to 2,000 fans every year, with capacities up to 137,000 m³/hour.

Our production is ISO 9001:2000 certified by Det Norske Veritas.

We are on 24/7 duty to service your installation – including other fan brands!

• JANFIRE • SCANDFILTER, ETC. – AND WE WANT TO ADD YOU TO OUR CLIENT LIST!

In 2007 we had a tender for chimney fans with several suppliers and in the end we selected Åkerstedts. We are extremely happy with this selection – quality, delivery terms and all other issues have been dealt with professionally.
